SAKTHI PRABHU R

MERN Stack Developer | React.js | Node.js

Chennai, India | +91 8760595553 | rsakthiprabhu2005@gmail.com | linkedin.com/in/sakthi-prabhu | github.com/prabhhhuu

PROFESSIONAL SUMMARY

Recent BCA graduate specializing in React.js and Node.js full-stack development. Builds responsive, component-based UIs with React, Tailwind CSS, and Bootstrap, backed by Node.js/Express.js services and REST API integration. Deploys live applications on Vercel and Railway, with hands-on experience debugging cross-browser and build-pipeline issues..

TECHNICAL SKILLS

- Front-End (Primary): JavaScript (ES6+), React.js, HTML5, CSS3, Tailwind CSS, Bootstrap, Responsive Web Design, DOM Manipulation
- Back-End (Primary): Node.js, REST API Integration
- Database: MongoDB, SQL
- Secondary / Backend Exposure: Python, FastAPI, Flask, LangChain
- Tools & Deployment: Git, GitHub, Vercel, Railway, Cross-Browser Testing & Debugging

PROJECTS

Dynamic Image Gallery — React.js

- Built a component-based image gallery in React with state-driven filtering and rendering; deployed live on Vercel.
- Structured reusable UI components and state management for a maintainable codebase.

Favourite Student List — React.js

- Built a React app using Context API for global state and Tailwind CSS for styling; deployed live on Vercel.

BetBillsBot — Node.js Telegram Bot

- Built and deployed a Node.js Telegram bot on Railway with an automated, event-triggered welcome flow for new members.
- Secured configuration using environment variables and set up continuous GitHub-based deployment.

RedStore — Responsive E-Commerce Website

- Built a responsive storefront (HTML5, CSS3, JavaScript) with live search and filtering via vanilla JS.
- Rebuilt a broken Tailwind CSS build pipeline, cutting output file size and restoring consistent styling.

INTERNSHIP EXPERIENCE

Python Programming & Development Intern | Innovate Intern - *Oct 2024*

- Built a Python-based website vulnerability scanner and automated data collection via web scraping.

Generative AI Intern | Sinthan AI Academy - *Jun 2025 – Jul 2025*

- Built an AI chatbot with LangChain-based conversational memory; contributed to UI design and API-integration work.

OPEN-SOURCE CONTRIBUTION

WareFlow — Inventory & Warehouse Management Tool (Collaborative GitHub Project)

- Redesigned review.html using Tailwind CSS as a contributor, coordinating changes via Git/GitHub without altering unrelated files.
- Cleaned up repository hygiene issues, including untracking accidentally committed node_modules and build artifacts.

EDUCATION

B.C.A. (Bachelor of Computer Applications) — SRM Institute of Science and Technology, Kattankulathur - *2023 – 2026*
CGPA: 7.58

Higher Secondary Education — Christian Matriculation, Oddanchatram - *2023*
Score: 87%

CERTIFICATIONS

- Python Programming Certification — Innovate Intern
- Generative AI Certification — Sinthan AI Academy
- Prompt Engineering Course — errormakesclever
