Sakthi Prabhu R

MERN Stack Developer | React.js | Node.js

Chennai, India

+91 8760595553 | rsakthiprabhu2005@gmail.com | LinkedIn | GitHub | Personal Website

PROFILE

Recent BCA graduate specializing in React.js and Node.js full-stack development. Builds responsive, component-based UIs with React, Tailwind CSS, and Bootstrap, backed by Node.js/Express.js services and REST API integration. Deploys live applications on Vercel and Railway, with hands-on experience debugging cross-browser and build-pipeline issues..

EDUCATION

SRM INSTITUTE OF SCIENCE AND TECHNOLOGY *Kattankulathur*

B.C.A. (Bachelor of Computer Applications) *2023 – 2026*

- Relevant coursework: Programming, Database Management, and Software Development.
- Applied concepts in hands-on projects using JavaScript, React.js, Node.js, Express.js, and MongoDB, including responsive web apps, REST API integration, and application data management.

CGPA: 7.58

CHRISTIAN MATRICULATION *Oddanchatram*

Higher Secondary Education *2021 – 2023*

Score: 87%

WORK EXPERIENCE

ASVIX

Fullstack Engineer Intern *Sep 2026 – Present*

- Validated API integration, retrieval, and separation of IDSP and WHO data with 27 offline tests and 6 live checks.
- Tested safeguards for reports over Pinecone's 40 KB metadata limit, catching potential data-mixing and retrieval issues.

SINTHAN AI ACADEMY

Generative AI Intern *Jun 2025 – Jul 2025*

- Built a LangChain chatbot with conversational memory to preserve context across interactions.
- Integrated APIs and contributed to UI design to improve the chatbot's user experience.

PROJECTS

DYNAMIC IMAGE GALLERY — REACT.JS *Present*

- Built a component-based image gallery in React with state-driven filtering and rendering; deployed live on Vercel.
- Structured reusable UI components and state management for a maintainable codebase.

CODE SENSEI — AI-POWERED CODING TUTOR (FLASK) *Present*

- Built a Flask backend with a multi-language code execution engine (Python, JavaScript, Java, C, C++) to run and evaluate learner-submitted code in real time. .

BETBILLSBOT — NODE.JS TELEGRAM BOT *Present*

- Built and deployed a Node.js Telegram bot on Railway with an automated, event-triggered welcome flow for new members.
- Secured configuration using environment variables and set up continuous GitHub-based deployment.

REDSTORE — RESPONSIVE E-COMMERCE WEBSITE *Present*

- Built a responsive storefront (HTML5, CSS3, JavaScript) with live search and filtering via vanilla JS.
- Rebuilt a broken Tailwind CSS build pipeline, cutting output file size and restoring consistent styling.

SKILLS

Front-End (Primary): JavaScript (ES6+), React.js, Next.js, Redux, HTML, CSS, Tailwind CSS, Bootstrap, Responsive Web Design, DOM Manipulation, Typescript

Back-End (Primary): Node.js, Express.js, REST API Integration

Database: MongoDB, SQL

Secondary / Backend Exposure: Python, FastAPI, Flask, LangChain

Tools & Deployment: Git, GitHub, Vercel, Railway, Cross-Browser Testing & Debugging

OPEN-SOURCE CONTRIBUTION

WAREFLOW — INVENTORY & WAREHOUSE MANAGEMENT TOOL (COLLABORATIVE GITHUB PROJECT) *Present*

- Redesigned review.html using Tailwind CSS as a contributor, coordinating changes via Git/GitHub without altering unrelated files.
- Cleaned up repository hygiene issues, including untracking accidentally committed node_modules and build artifacts.

ADDITIONAL

Courses: Generative AI Certification, Prompt Engineering Course, FullStack MERN Developement
